Experience

Aimbrill Tech info

Web Developer Intern

March 2023 – Sep 2023

Ahmedabad, India

- Collaborated with a dynamic team of web developers on various phases of the web development process.
- Completed a web development course from Udemy during my internship, enhancing my skills in front-end and back-end technologies.
- Developed websites using React.js, effectively translating Figma designs into interactive and responsive web interfaces

Projects

Coinintel | ReactJS, HTML, SCSS

[View Project](#)

- * Developed a web application that fetches and displays cryptocurrency graphs, providing comprehensive market information such as market cap, high and low prices.
- * Implemented a responsive user interface using Chakra UI for a consistent and modern design. Allows users to analyze cryptocurrency data and access information from different exchanges.
- * Includes a currency option feature, enabling users to view data in various currencies for better customization.

Bherusplit | React, Tailwind CSS, Firebase

[View Project](#)

- * Features:
 - Google authentication for seamless user access. Local storage integration for saving user preferences and progress.
 - Personalized workout plans tailored to individual preferences and fitness goals. Dynamic goal-specific repetitions and counts to enhance user engagement and results.

Some Other Project and Web Clone | HTML, CSS, JS, React js, Tailwind

[View Project](#)
